PERSONAL PROFILE

An ambitious and curious learner with a growing foundation in IT systems, cybersecurity, and emerging technologies. Driven by a deep interest in how different technologies interact, I actively seek opportunities to apply my understanding to solve real-world problems. Through self-directed projects and practical training, I've developed hands-on skills in networking, system configuration, cloud platforms, and data security - all while staying deeply engaged with the rapidly evolving world of AI.

What I lack in experience, I make up for in determination, adaptability, and a genuine passion for technology. I'm driven by the idea of contributing to meaningful innovation - whether through strengthening digital infrastructure, protecting systems from threats, or exploring how artificial intelligence can transform the way we live and work. With a logical mindset and a love for problem-solving, I'm eager to grow into a role where I can learn from experts, make a real impact, and help shape the future of tech. I'm seeking to join a company where I can support meaningful tech initiatives while developing into a future specialist - ready to take the first step into the world of professional tech, and build a future where curiosity meets innovation.

SKILLS AND COMPETENCIES

- A comprehensive user of Windows operating systems with a good working knowledge of the Microsoft Office suite (Word, Excel, PowerPoint and Office 365), Windows Server 2016
- Proficient in ticket logging and client request management using SolarWinds Ticket Logging System/Helpdesk
- Experience with PC hardware and software installation, upgrades and testing, troubleshooting faults and remote support
- Capable of designing hardware systems tailored to customer specifications and needs
- Proficient in troubleshooting hardware and software problems, including BIOS/registry/router configuration and backup-restoration utilities
- Experience with Active Directory, DNS, DHCP, and various other server roles such as file shares and printing services. Experience with distribution group creations, security groups, and password resets on active directory
- Experience performing administration tasks in a cloud environment (Azure), including account creation, role and group assignment and Entra ID creation/configuration
- Basic threat identification: understanding of common cyber threats (viruses, phishing, malware) and appropriate protective measures
- Basic knowledge of AI concepts and how machine learning can be applied to solve problems
- Familiarity with data privacy concepts like GDPR and securing sensitive information
- Proficient in cloud resource creation and management, including virtual machines and storage accounts
- Good organisation and time management skills, and able to work independently and within a team
- Strong work ethic and able to work under pressure to meet tight deadlines
- Excellent verbal and written communication skills
- Highly fluent in English

WORK EXPERIENCE

(References Available Upon Request)

Community Magazine Distributor

inandaroundLoose, Maidstone

2015 – Present (Bi-monthly)

- Independently delivered 2,000+ magazines across the local area on a set schedule for nearly a decade
- Demonstrated long-term reliability, route planning, and time management
- Built positive rapport with residents through regular presence in the community

Sales Assistant

Iceland Supermarket, Maidstone

Aug 2021 – Jan 2023

- Trusted with early-morning responsibilities to prepare and fulfil online orders with speed and accuracy
- Maintained a strong understanding of product availability, substitutions, and customer satisfaction expectations, interacting with customers and handling queries when needed
- Worked efficiently under pressure during peak retail periods and tight delivery schedules
- Communicated with drivers and store staff to ensure smooth handovers and timely dispatch
- Supported new team members by sharing best practices and helping maintain a consistent workflow

Customer Service Assistant (Bar Support)

Madisons Bar & Restaurant, Maidstone

Mar 2020 – COVID-19 Lockdown

- Provided high-quality customer service in a busy, high-energy hospitality environment
- Assisted bartenders and wait staff to keep service flowing smoothly during peak hours
- Maintained cleanliness and organisation across bar and floor areas to meet health and safety standards
- Adapted quickly to changing tasks and customer needs in a fast-paced team setting

History: 6 | Geography: 5 | Religious Studies: 5 | Combined Science: 5-5

Business (BTEC Level 2): Merit

HOBBIES AND INTERESTS

With a strong interest in human behaviour, I regularly explore psychology and behavioural science to better understand cognition, motivation, and decision-making. I stay active through regular exercise, which helps me stay focused, healthy, and resilient. I also enjoy exploring new developments in technology, cybersecurity, and how systems interconnect - whether in networks, organisations, or people.
